

Experience and expertise ensuring innovation meets transformation

**"Innovation is the heartbeat of our company,
driving us to constantly challenge the status
quo and create solutions that shape the
future."**

About Us

Secutech Systems and Solutions is a fast growing company established in the year 2016. We are highly efficient into turnkey Projects. We have highly qualified engineering support team for implementation process.

Over the years, the company has earned a reputation for excellence and professionalism. Continuously striving for to meet—and even exceed—standards that set the climate for a sustainable business relationship with its clients. We commenced with power quality study, expertise over it then expanded our wings further into electrical panels turnkey projects and Embarked into the field of interior projects and MEP projects.

We have the capacity to mobilize manpower and equipment for all kinds of civil works of any magnitude.

Our portfolio includes pharmaceutical HVAC projects with chilled water and cooling water system design execution for commercial as well as residential purpose.

We provide high quality painting and decorating service and we carry out best interior and exterior projects.

As an electrical solution specialist, we offer electrical power products ranging from transformers, switch gears, XLPE & FRLS cables, panel boards, power meters, and switches & Industrial sockets. The company also offers control products such as Active Harmonic filters, variable frequency drive, Static Var Generators, UPS, AVR, batteries, motors and even lighting fixtures.

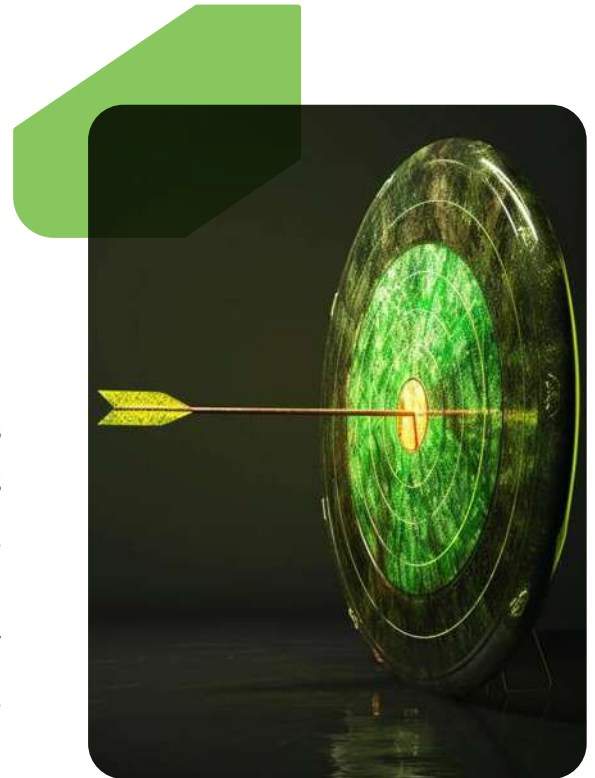

We aim to be a leading Turnkey project service provider by focusing on the timely implementation of our projects and meeting expectations and requirements of our customers at the highest possible level.

Vision & Mission

OUR VISION

We strongly believe that success is based on pro-active and dedicated team work in a professional and ethical environment that leads to creative solutions and fully deserved rewards. This said, we always focus on safety, quality, detailed approach and, above all, diligent handling of budgetary means in order to maintain high standards at all levels of our activities, especially in dealings with employees, suppliers, subcontractors, and customers

Our Mission

Provide end-to-end integrated power system solutions globally through Best-in-Class Technology, Quality and Safety. Continuous improvement of processes to ensure customer satisfaction. Create an environment for our people to pursue excellence through continuous learning.

Setting the standard of excellence in modern power systems globally.

Team Strength

Our team is composed of technically skilled and highly dedicated personnel working cohesively to promote value-added solutions with a competitive pricing structure to suit your needs. We also engage in electrical product installations, testing and commissioning, preventive maintenance, automation, and energy saving solutions. From tendering to execution of projects we track each & every aspect including planning, procurement & implementation for successful completion. Our commitment is to deliver outstanding results that will exceed your expectations.

Why Us?

Adaptable:

You can rely on us to find a solution that will suit your needs. Our team has worked successfully within a range of different environments, and we're familiar with adapting our working practices to suit each of our clients.

Organised and efficient:

We have invested heavily in technology and use an internal app, streamlining processes to delivering a better service. We track engineers and assign work accordingly, so we can provide accurate arrival times and if you need us in an emergency, we can quickly find the engineer closest to you.

Clear communication:

From the moment you get in touch we communicate clearly and ensure you know exactly what is happening. We provide quotations, keep track of all projects and inform you about progress. We have a full support team in the office ready to take your call or respond quickly to messages.

Why Us?

Experience and training:

We have been in business for more than 8 years and have trained up team members ourselves, making sure they are highly knowledgeable. We are confident that all staff are good representatives of our brand and can deliver the quality service that's associated with our name.

Our clients recommend us:

The vast majority of our work comes from repeat business and recommendations – around 90% in total. Many of our clients have worked with us for years and choose us again and again when they need any electrical services, as well as recommend us to friends and family.

Options, options, options:

There is only the right way but in this industry, there is usually more than one way. We provide options. We consult with the customer, understand the budget, and talk to the inspectors, engineers and our electricians. We will deliver options and get it done.

Milestones

2025: Our goal is to start manufacturing plant.

2024: Started turnkey projects

2023: Started doing Interior projects
(Movable & Non-Movable)

2022: Doing Complete electrical Turnkey
Projects (Factory & High rise Buildings)

2021: Electrical Contracts. Started to do
MW projects in UPS systems.

Providing solar projects & Energy
saving solutions. **:2020**

Started all type of electrical panels-Supply
and installation. **:2019**

Manufacturing APFC panel, AHF panel-Supply,
installation, commissioning and Service after sales. **:2018**

Providing power quality Solution for all type of industries. **:2017**

Company Established in 2016 –started with authorized product
distribution (Delta electronics,Electronicon,precise electronics). **:2016**

Projects & Services

Our turnkey projects and services driven by innovation and excellence, our goal is deliver high-quality products and create long-term value for our customers.

Mechanical

- › Structural steel works
- › PEB
- › Fabrication drawing
- › Shutter work
- › Doors
- › Partition
- › HVAC (Heating,Ventilation, and Air Conditioning) Design and Installation
- › Energy Management Solutions
- › Fire Protection Systems

Electrical

- › Power Quality Analysis and Improvement
- › Manufacturing of APFC panel, AHF panel
- › Electrical Distribution Systems
- › Lighting Design and Installation
- › Renewable Energy Solutions (Solar, Wind, etc.)

Interior

- › Design & False ceiling
- › Movable furniture installation
- › Non movable furniture installation

Plumbing

- › Plumbing Design and Installation
- › Water Supply and Distribution Systems
- › Drainage and Sewage Systems
- › Rainwater Harvesting Solutions

Clean Room

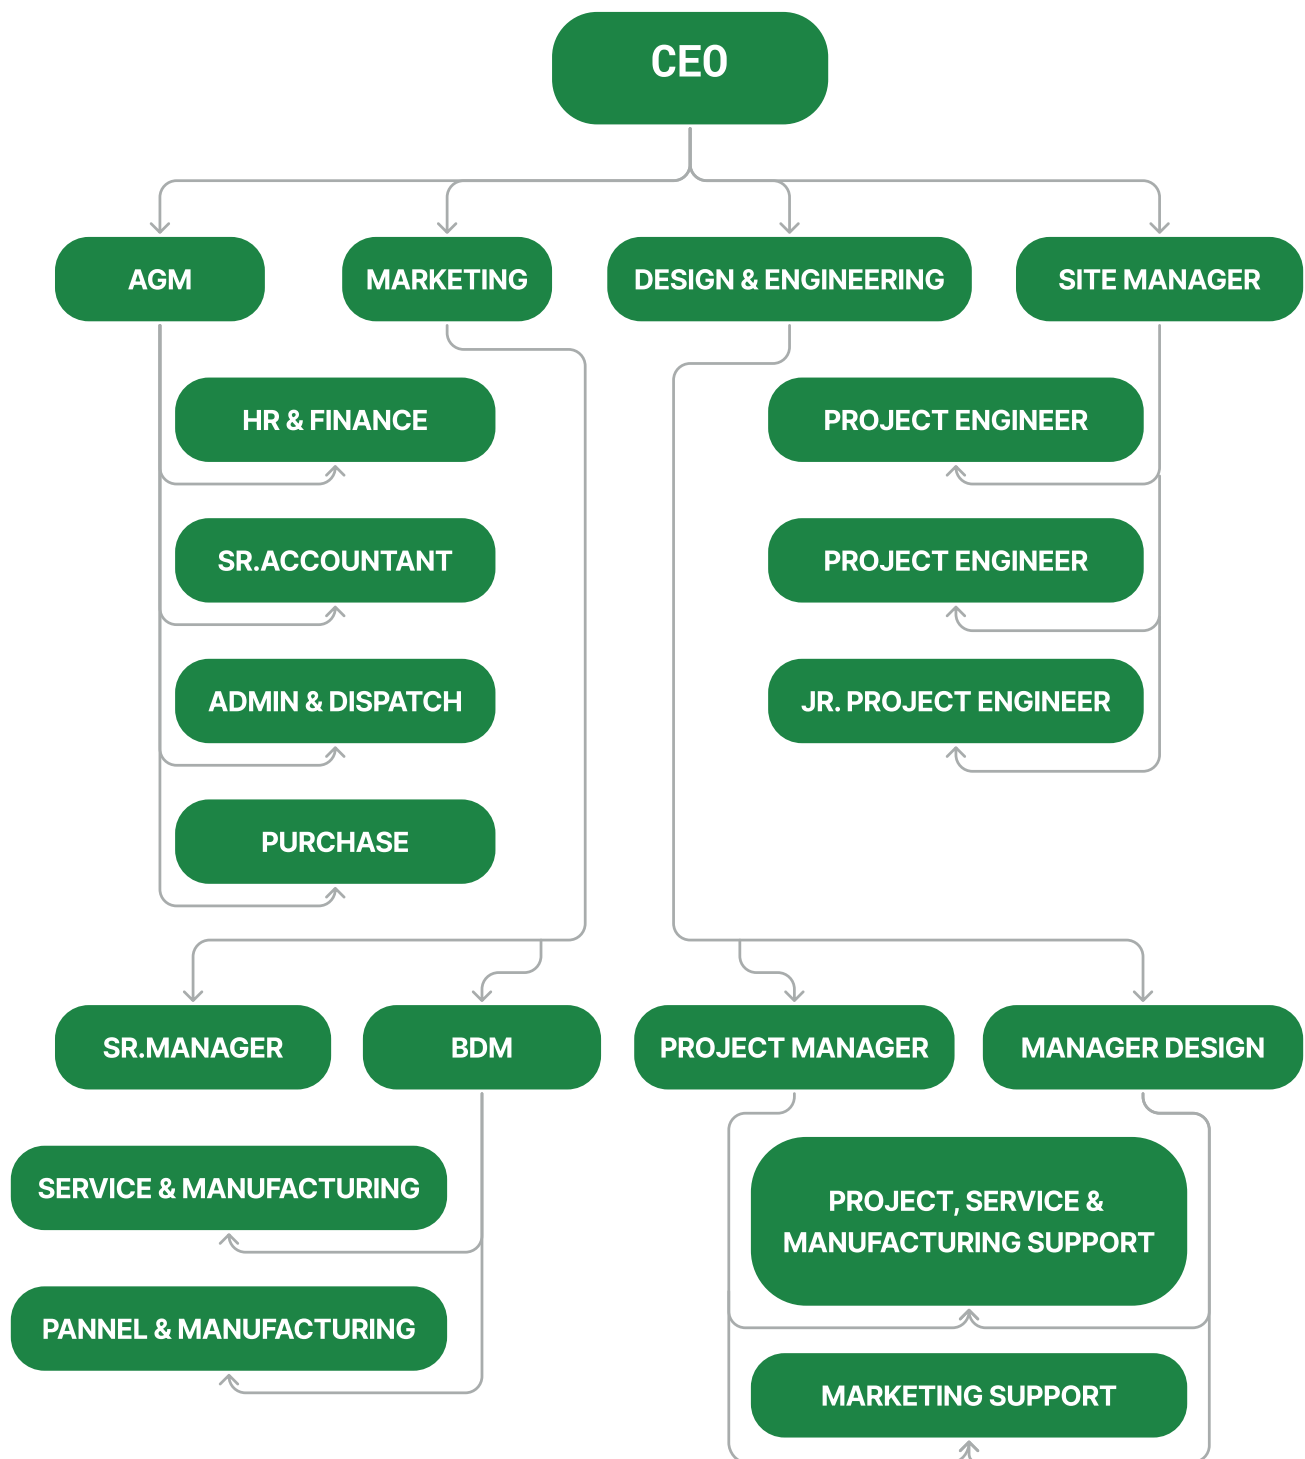

- › Modular Clean Booths
- › HEPA/ULPA Filters
- › Epoxy & ESD Flooring
- › Air Showers & Equipment's
